

CITY OF HOWE, TX

IRRIGATION INSTALLATION CHECKLIST

- Valid irrigation license is required (and to be submitted for copy) prior to installation; unless property owner is performing the installation. A home or property owner who installs an irrigation system must meet the standards contained in *Title 30, Texas Administrative Code, Chapter 344*.
- A City of Howe Irrigation Permit Application must be properly completed and submitted to the city along with \$50.00 permit fee.
- A (paper or electronic) copy of the irrigation site and design plans must be submitted to the city prior to installation.
- Upon completion a licensed Backflow Prevention Assembly Tester (BPAT) must test all backflow prevention assemblies prior to irrigation system being placed in service. All BPAT test reports must be submitted to the City of Howe upon completion. *(All backflow prevention assemblies must be tested upon installation and annually thereafter per Ordinance No. 754)*
- Upon completion an inspection of the irrigation system must be requested and completed.
- Upon completion a copy of the irrigation plan and Backflow Prevention Assembly Test reports must be provided to the owner or representative of the irrigation system.
